The Children are waiting for our contributions. It takes compassion to end violence against children.

Dear Partners and Friends,

Time is flying and the **19 Days of Activism** campaign for the **Prevention of violence against children and youth** starts in 7 days' time.

The world needs our contributions to mobilize your community for the creation of a new future where ending violence against children and youth no longer exists.

"Whatever you can do or dream you can begin it. Boldness has genius, power, and magic in it. Begin it now." — Johann Wolfgang von Goethe.

**Realizing the Sustainable Development Goal Target 16.2: "End abuse, exploitation, trafficking and all forms of violence and torture against children", does demand our compassion, creativity, and power.**

Our Prevention Kit includes 19 themes to choose from and you are free to include any other topic(s) that you find challenging in your community. All we wish to make happen is that as many organizations, groups, and clubs, organize for action to end the persistence of violence against children and youth in the world - it's an idea whose time has come.

**"Every 5 Minutes a child dies as a result of violence".**

Every conversation, event, and story can be meaningful and move us all closer to 2030, the year the world promised violence against children will be ended.

If you have not registered your program [online](#), do it now and remember, the world will be a better place for it.

We also share with you our **annual Poster to commemorate the 19 and 20 November**, two world days, which can bring your message to the public and to your government.

**Use the poster, add your program at the bottom, and educate your network of the SDG Target 16.2 and mobilize them to become actors for a better future for our children and grandchildren.**
